Claim Rejections - 35 USC § 112

Claims 1-8 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The terms "similar" and "corresponding" are indefinite as it is not clear as to their meaning in the present context.

The beginning of claim 1 is ambiguous. It is assumed that the claim begins with "A partition wall".

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1 and 5-7 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Peterson.

See trains made of members 6,32,34, etc., with panels 8 attached to pairs of members of adjacent trains and to opposing sides, meaning either opposing panels attached to opposite sides of the wall or each panel 8 is attached to a member such that it is "secured" to all sides of the member, including opposing sides. See also the raising and lowering means 64,70, etc.

Art Unit: 3634

Allowable Subject Matter

Claims 2-4 and 8 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
